

COMMONWEALTH OF KENTUCKY  
BEFORE THE PUBLIC SERVICE COMMISSION

In the Matter of:

THE APPLICATION OF TELALEASING	)	
ENTERPRISES, INC. FOR A CERTIFICATE TO	)	CASE NO. 94-158
RESELL TELECOMMUNICATIONS SERVICE	)	

O R D E R

On April 15, 1994, Telaleasing Enterprises, Inc. ("Telaleasing") filed an application with the Commission seeking a Certificate of Public Convenience and Necessity to resell intrastate long-distance telecommunications services within the Commonwealth of Kentucky. Telaleasing filed its response to the Commission's June 7, 1994 Order requesting additional information on July 12, 1994.

Telaleasing is an Illinois corporation with its principal offices in the state of Florida and intends to resell tariffed services of facilities-based carriers certified by this Commission. Telaleasing also requests authority to provide operator-assisted telecommunications services.

Telaleasing does not own or operate, nor does it intend to construct, any telecommunications transmission facilities within the Commonwealth of Kentucky. All intrastate telecommunications transmission services will be provided by an underlying carrier certified by this Commission.

Telaleasing filed its proposed tariff on April 15, 1994. In response to the Commission's Order, Telaleasing filed revised

tariff sheets on July 12, 1994. The Commission finds that Telaleasing has revised its tariff to comply with the restrictions, guidelines, and conditions of service established for the provision of operator-assisted services in Administrative Case No. 330,<sup>1</sup> which are attached hereto and incorporated herein as Appendix A, with the following exception: Refer to Original Page 24.1, Section 4.1.1(c), Per Minute Usage Rates filed July 22, 1994. The current rate for Each Additional Minute in the 0-10 mileage band should not exceed \$.1400. Telaleasing should provide a revised tariff sheet pursuant to ordering paragraph six of this Order.

The application provided by Telaleasing demonstrates its financial, managerial, and technical capability to provide utility service. The Commission finds that Telaleasing should be authorized to resell intrastate long-distance telecommunications services within the Commonwealth of Kentucky. The Commission further finds that the rates proposed by Telaleasing, as revised on July 12, 1994 and with the revision noted above, should be approved as the fair, just, and reasonable rates to be charged.

The Commission, having considered the evidence of record and being otherwise sufficiently advised, HEREBY ORDERS that:

1. Telaleasing be and it hereby is granted authority to resell intrastate long-distance telecommunications services within the Commonwealth of Kentucky on and after the date of this Order.

---

<sup>1</sup> Administrative Case No. 330, Policy and Procedures in the Provision of Operator-Assisted Telecommunications Services, Orders Dated March 27 and May 3, 1991.

2. Telaleasing be and it hereby is granted authority to provide intrastate operator-assisted services within the Commonwealth of Kentucky on and after the date of this Order.

3. Telaleasing's authority to provide service is strictly limited to those services described in this Order and Telaleasing's application, and the conditions described in this Order and in Appendix A.

4. IntraLATA services shall be provided in accordance with the restrictions and conditions of service contained in Administrative Case No. 323.<sup>2</sup>

5. The rates proposed by Telaleasing on April 15, 1994, as revised on July 12, 1994 and with the revision noted above, are hereby approved.

6. Within 30 days from the date of this Order, Telaleasing shall file, pursuant to 807 KAR 5:011, its revised tariff sheets with the revision noted above to conform with the restrictions and conditions of service contained herein.

---

<sup>2</sup> Administrative Case No. 323, An Inquiry Into IntraLATA Toll Competition, An Appropriate Compensation Scheme for Completion of IntraLATA Calls by Interexchange Carriers, and WATS Jurisdictionality, Phase I, Order Dated May 6, 1991.

Done at Frankfort, Kentucky, this 2nd day of September, 1994.

## APPENDIX A

APPENDIX TO AN ORDER OF THE KENTUCKY PUBLIC SERVICE  
COMMISSION IN CASE NO. 94-158 DATED September 2, 1994.

**Conditions of Service for the Provision of Operator  
Services Adopted from Commission Orders in Administrative  
Case No. 330, Orders Dated March 27, 1991 and May 3,  
1991.**

(1) Operator-assisted services shall be subject to rate regulation and rates shall not exceed AT&T Communications of the South Central States, Inc.'s ("AT&T") maximum approved rates. "Maximum approved rates" are defined to mean the rates approved by this Commission in AT&T's most recent rate proceeding for measured toll service applicable to operator-assisted calls, as well as the additional charges for operator assistance. Carriers are not permitted to include any other surcharges or to bill for uncompleted calls. Time-of-day discounts shall also be applicable. Carriers are also required to rate calls using the same basis that AT&T uses to rate calls, i.e., distance calculations based on points-of-call origination and termination, definitions of chargeable times, billing unit increments, rounding of fractional units, and minimum usages. When there is any change in AT&T's maximum approved rates, carriers shall file tariffs if necessary to comply with the requirements herein within 30 days of the effective date of AT&T's rate change.

(2) Except as otherwise indicated in this Order, non-dominant carriers shall be subject to regulation as delineated in the May 25, 1984 Order in Administrative Case No. 273 as well as any subsequent modifications to non-dominant carrier regulations. In the event of

conflict, the terms of the instant Order shall take precedence, unless a carrier is specifically relieved from compliance with any conditions contained herein.

(3) Operator service providers that provide service to traffic aggregators shall not allow access to the operator services of competing carriers to be blocked or intercepted. Blocking and interception prohibitions shall be included in tariffs and all contracts entered into with any traffic aggregator and shall state that violators will be subject to immediate termination of service after 20 days' notice to the owners of non-complying customer premises equipment.

(4) Traffic aggregator is defined to mean any person that, in the ordinary course of its operations, makes telephones available to the public or to transient users of its premises for intrastate telephone calls using a provider of operator services. Aggregators include hotels and motels, hospitals, universities, airports, gas stations, and non-local exchange carrier pay telephone owners. This definition includes the provision of all non-local exchange carrier pay telephones even if no compensation is paid to the owner of the pay telephone. The residential use of operator services is specifically excluded from this definition.

(5) Access to the local exchange carriers' operators shall not be blocked or otherwise intercepted by traffic aggregators. Specifically, all "0-" calls, that is, when an end-user dials zero without any following digits, shall be directed to the local exchange carrier operators. In equal access areas, "0+" intraLATA calls, that

is, when an end-user dials zero and then dials the digits of the called telephone number, shall not be intercepted or blocked. In non-equal access areas, it is prohibited to block or intercept "0-" calls; however, it is permissible to intercept "0+" calls. Blocking and interception prohibitions shall be included in tariffs and all contracts entered into with any traffic aggregator and shall state that violators will be subject to immediate termination of service after 20 days' notice to the owners of non-complying customer premises equipment.

(6) Carriers shall not be required to provide access codes of competitors. Each carrier should advise its own customers as to the appropriate 10XXX access code.

(7) Carriers shall provide tent cards and stickers to traffic aggregators to be placed near or on telephone equipment used to access their services and shall include provisions in tariffs and contracts entered into with any traffic aggregator that subject violators to immediate termination of service after 20 days' notice to the owners of non-complying customer premises equipment.

(8) Operators shall identify the carrier at least once during every call before any charges are incurred.

(9) Operators shall provide an indication of the carrier's rates to any caller upon request.

(10) Carriers shall not accept calling cards for billing purposes if they are unable to validate the card.
